

POP QUIZ

- Which two Australian poets were born in Orange, one who died in 1941 and one who died in 1971?
- Which town lies half way between Cudal and Forbes?
- Charles Sturt University will establish a campus in which town, 800 klms from Broken Hill, after signing a memorandum of understanding recently?
- In 1863 Bushrangers took over which town for three days forcing residents and travellers into an Inn?
- Bathurst cyclist Mark Renshaw will ride for which team in the Tour de France?
- How high is the Shrine of Remembrance on Memorial Hill in Parkes?
- Millthorpe, Barry and Newbridge are all part of which local Government area?
- Which Gold Mining town had 28 recorded pubs in the late 1800s?
- The Wolgan, Colo and Capertee Rivers all flow through which National Park?
- What species of fish are commonly caught by anglers at Oberon Dam?

Health and Helicopter Update

Over the last two years there has been a flood of calls for an upgrade to the air ambulance service in the Central West. We have some of the best staff and medical professionals in the state but they are being let down by the Labor Government. It was back in 2008 that I first called for a Royal Commission into the service. It was evident even then that something had to be done. Since then the Labor party have watched on as the situation became worse. Only a Labor Minister could argue that accidents only occur during business hours. Only a Labor Premier could argue that a fixed wing aircraft can cover the workload west of the Blue Mountains. Only a Labor Prime Minister could break a promise to have the health and hospital situation fixed by mid 2009, and still sit back and watch as lives are threatened in Western New South Wales. We know that Western New South Wales has a demand as high, or higher than Wollongong and higher demand for a 24 hour helicopter than Canberra or Lismore, all of which have the service. The calls continue to get louder from inside the community and inside the Coalition for a full time medical retrieval service and a better equipped helicopter. I congratulate those organisations that are joining me in putting pressure on the Labor Government and encourage all concerned local residents to continue to demand the service we deserve.

Cobby Meeting with members of the Forbes progress society at their homes in Forbes. The group has joined in efforts to attract better health facilities to the region, like a 24-hour rescue helicopter.

Tottenham comes to Town

Disgruntled parents and community members made their way to the lawn of Parliament house on the 2nd of June to take part in the "Greatest Rip-Off Rally". A number of schools from the Calare electorate were represented with the P & C of Tottenham Central School featuring on the day. A replica of the Tottenham canteen was built on the lawn of parliament to show the outrageous waste of tax payer funds. Representatives of Tottenham Central and other schools in Calare have spoken recently with the Building the Education Revolution taskforce as the scope. The hard campaigning by the P & C at Tottenham and the Coalition has forced Labor to suspend some payments in Tottenham until a thorough investigation can take place.

Cobby attending the "Greatest Rip-Off Rally" with Tottenham P & C President Rick Bennett, Coalition Leader Tony Abbott and Shadow Minister for Education Christopher Pyne

Investing in our Future

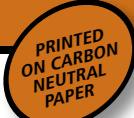

The Coalition recently announced they would be investing \$1 billion into Regional Education if elected to Government to deliver the best possible education to our kids.

The Regional Education Fund is designed to bridge the gap that has emerged between the education available in cities and in Regional Australia. The program will encourage further training and education for our wonderful teachers whilst providing them with the facilities and environment they deserve. The Fund will also support capital investment in Regional Universities and that means the students and communities in Calare benefit. To oversee this new direction the Coalition will appoint a Parliamentary Secretary for Regional Education and unlike Labor's supposed regional appointees, the Coalitions representative will live outside the capital cities. The Coalition will also establish a dedicated regional education unit in the Department. The Coalition has a positive message about our education and will back this with positive programs, not break promises and waste enormous sums of money.

Securing our most valuable asset

Despite a good start to the season and the rain gauge finally seeing some action, water remains our most precious commodity. In the area where serious mining and agriculture began - every drop counts.

Our industries need it, our farmers need it and our communities need it.

The last decade has stretched our resources to the absolute limits with a large proportion of the electorate now on some form of water restriction.

Recently we finally received some news to smile about. Oberon will have a storm water harvesting scheme and Bathurst will now recycle some of its grey water from the waste treatment plant. These are small steps to solving a much larger problem. In recent weeks I have toured Calare's major water catchments and have seen first hand just how desperate things are. More needs to be done.

As a party for Regional Australia, The National party leadership are aware of how bad things are and how vital it is to act now. The Labor party funnel money into urban strongholds to secure more seats and Regional citizens have the right to be upset.

Cobby meets with Bob Wilson at the Oberon Dam

Ben Chifley Dam outside of Bathurst

Our Plan for Regional Australia

- 1 **Strong Economic Management** by paying off Labor's debt, lowering taxes and putting an end to Labor's reckless spending
- 2 **A fair share for Regional Australia** with guaranteed funding for local services and critical infrastructure needs
- 3 **Real help with the Cost of living** with downward pressure on interest rates and a stop to Labor's great big ETS and mining taxes
- 4 **Strengthening Communities** with practical help and real respect for families, seniors and young Australians
- 5 **A Healthier Regional Australia** local hospitals run by local hospital boards with targeted funding and more health professionals
- 6 **21st Century Education** a \$1 billion regional education fund to provide access to quality education no matter where you live
- 7 **Better Communications** through access to new technology for all Australians
- 8 **Secure National Borders** by stopping illegal immigration and tightening quarantine
- 9 **Protecting the Environment** direct action on climate change and our natural environment
- 10 **Securing our Water Supplies** balancing conservation and community needs with careful planning and wise advice
- 11 **A Fair Go for Small Business** and regional tourism to create jobs and regional prosperity
- 12 **Expanding the Transport Network** with a safe and modern transport system that links the nation
- 13 **Cleaner Transport Fuels** and energy security through wider use and biofuels and LPG
- 14 **Securing our Food and Fibre Future** to grow Australia's economy and feed the world
- 15 **A Fair Go for All Australians** and a helping hand for seniors, carers and the disadvantaged

- 1 **Strong Economic Management** by paying off Labor's debt, lowering taxes and putting an end to Labor's reckless spending
- 2 **A fair share for Regional Australia** with guaranteed funding for local services and critical infrastructure needs
- 3 **Real help with the Cost of living** with downward pressure on interest rates and a stop to Labor's great big ETS and mining taxes
- 4 **Strengthening Communities** with practical help and real respect for families, seniors and young Australians
- 5 **A Healthier Regional Australia** local hospitals run by local hospital boards with targeted funding and more health professionals
- 6 **21st Century Education** a \$1 billion regional education fund to provide access to quality education no matter where you live
- 7 **Better Communications** through access to new technology for all Australians
- 8 **Secure National Borders** by stopping illegal immigration and tightening quarantine
- 9 **Protecting the Environment** direct action on climate change and our natural environment
- 10 **Securing our Water Supplies** balancing conservation and community needs with careful planning and wise advice
- 11 **A Fair Go for Small Business** and regional tourism to create jobs and regional prosperity
- 12 **Expanding the Transport Network** with a safe and modern transport system that links the nation
- 13 **Cleaner Transport Fuels** and energy security through wider use and biofuels and LPG
- 14 **Securing our Food and Fibre Future** to grow Australia's economy and feed the world
- 15 **A Fair Go for All Australians** and a helping hand for seniors, carers and the disadvantaged

POP QUIZ

1. Which two Australian poets were born in Orange, one who died in 1941 and one who died in 1971?
2. Which town lies half way between Cudal and Forbes?
3. Charles Sturt University will establish a campus in which town, 800 klms from Broken Hill, after signing a memorandum of understanding recently?
4. In 1863 Bushrangers took over which town for three days forcing residents and travellers into an Inn?
5. Bathurst cyclist Mark Renshaw will ride for which team in the Tour de France?
6. How high is the Shrine of Remembrance on Memorial Hill in Parkes?
7. Millthorpe, Barry and Newbridge are all part of which local Government area?
8. Which Gold Mining town had 28 recorded pubs in the late 1800s?
9. The Wolgan, Colo and Capertee Rivers all flow through which National Park?
10. What species of fish are commonly caught by anglers at Oberon Dam?

1. Banjo Patterson and Kenneth Slessor
2. Eugowra. 3. Parkes. 4. Canowindra.
5. Columbia HTC. 6. 35 metres. 7.
Blayney. 8. Hill End. 9. Wolllemi. 10.
Brown and Rainbow Trout.

ANSWERS

Health and Helicopter Update

Over the last two years there has been a flood of calls for an upgrade to the air ambulance service in the Central West. We have some of the best staff and medical professionals in the state but they are being let down by the Labor Government.

It was back in 2008 that I first called for a Royal Commission into the service. It was evident even then that something had to be done.

Since then the Labor party have watched on as the situation became worse.

Only a Labor Minister could argue that accidents only occur during business hours.

Only a Labor Premier could argue that a fixed wing aircraft can cover the workload west of the Blue Mountains.

Only a Labor Prime Minister could break a promise to have the health and hospital situation fixed by mid 2009, and still sit back and watch as lives are threatened in Western New South Wales.

We know that Western New South Wales has a demand as high, or higher than Wollongong and higher demand for a 24 hour helicopter than Canberra or Lismore, all of which have the service.

The calls continue to get louder from inside the community and inside the Coalition for a full time medical retrieval service and a better equipped helicopter.

I congratulate those organisations that are joining me in putting pressure on the Labor Government and encourage all concerned local residents to continue to demand the service we deserve.

Cobby Meeting with members of the Forbes progress society at their homes in Forbes. The group has joined in efforts to attract better health facilities to the region, like a 24-hour rescue helicopter.

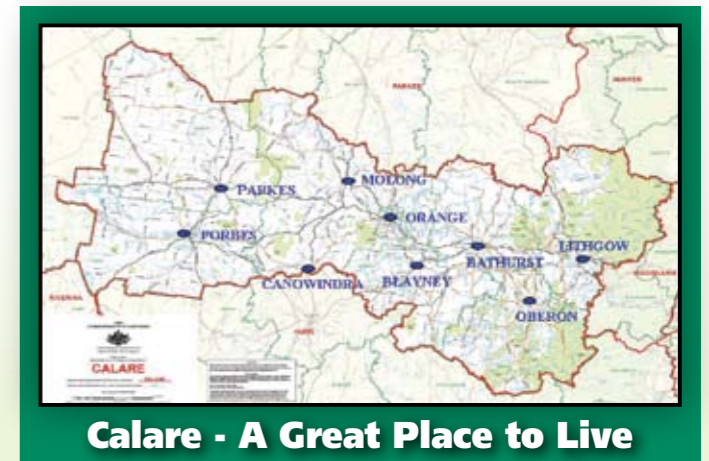

Tottenham comes to Town

Disgruntled parents and community members made their way to the lawn of Parliament house on the 2nd of June to take part in the "Greatest Rip-Off Rally". A number of schools from the Calare electorate were represented with the P & C of Tottenham Central School featuring on the day. A replica of the Tottenham canteen was built on the lawn of parliament to show the outrageous waste of tax payer funds. Representatives of Tottenham Central and other schools in Calare have spoken recently with the Building the Education Revolution taskforce as the scope. The hard campaigning by the P & C at Tottenham and the Coalition has forced Labor to suspend some payments in Tottenham until a thorough investigation can take place.

Cobby attending the "Greatest Rip-Off Rally" with Tottenham P & C President Rick Bennett, Coalition Leader Tony Abbott and Shadow Minister for Education Christopher Pyne

Investing in our Future

The Coalition recently announced they would be investing \$1 billion into Regional Education if elected to Government to deliver the best possible education to our kids.

The Regional Education Fund is designed to bridge the gap that has emerged between the education available in cities and in Regional Australia.

The program will encourage further training and education for our wonderful teachers whilst providing them with the facilities and environment they deserve.

The Fund will also support capital investment in Regional Universities and that means the students and communities in Calare benefit.

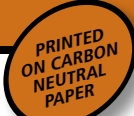

To oversee this new direction the Coalition will appoint a Parliamentary Secretary for Regional Education and unlike Labor's supposed regional appointees, the Coalitions representative will live outside the capital cities.

The Coalition will also establish a dedicated regional education unit in the Department.

The Coalition has a positive message about our education and will back this with positive programs, not break promises and waste enormous sums of money.

Securing our most valuable asset

Despite a good start to the season and the rain gauge finally seeing some action, water remains our most precious commodity. In the area where serious mining and agriculture began - every drop counts.

Our industries need it, our farmers need it and our communities need it.

The last decade has stretched our resources to the absolute limits with a large proportion of the electorate now on some form of water restriction.

Recently we finally received some news to smile about. Oberon will have a storm water harvesting scheme and Bathurst will now recycle some of its grey water from the waste treatment plant. These are small steps to solving a much larger problem. In recent weeks I have toured Calare's major water catchments and have seen first hand just how desperate things are. More needs to be done.

As a party for Regional Australia, The National party leadership are aware of how bad things are and how vital it is to act now. The Labor party funnel money into urban strongholds to secure more seats and Regional citizens have the right to be upset.
